

# Abubakar Bashir

Full-Stack Web Developer · ICT Technician

## Contact

### Phone

08073594491 | 09068291951

### Email

eleganttechsolution01@gmail.com

### Address

No: 13, Malta ifediora street,  
Majek 2<sup>nd</sup> gate, Ajah, Lagos.

## Soft Skills

Communication skills

Critical thinking

Problem solving

Time Management

Teamwork

Creativity

## Language

English (Fluent)

French (Intermediate)

Spanish (Basic)

## Achievements

### Best Project so far:

Developed a real-time spy camera system with SMS alert functionality.

Intruder Alert systems that manages a radius of over 40(forty) meters.

Web application development for pregnant women.

Custom WordPress themes development.

## Experience

2019

Oduduwa University

### SIWES 1

- Construction of a programmable led display system.
- Design and Construction of a solar plate.

2020

Odudwa University

### SIWES 2

- Additional knowledge on HTML, CSS, JavaScript, Bootstrap, PHP and MySQL
- Designed a web application for pregnant women

2021

Teso Tech ICT

### ICT Technician

Installed and programmed smart systems including automated gates, CCTV, smart home setups, and hotel card locks for both residential and commercial applications.

## Education

2018 - 2023

Odudwa University

### B.Eng. in Computer Engineering

Gained solid foundation in embedded systems, electronics, programming, and hardware-software integration. Worked on real-time systems, circuit design, and microcontroller-based projects. Final year project focused on developing a real-time spy camera system with SMS alert functionality.

2023 - Present

Self-Taught Developer

### Professional Development

Built and refined web development skills through online platforms and self-guided projects. Focused on JavaScript, PHP, React, and backend development.

## Major skills

### Front End Development:

- HTML, CSS & Bootstrap.
- JavaScript
- Responsive Design
- Git/GitHub

### Back End Development:

- Server, Network and Hosting.
- Database Management e.g. MySQL
- Server-side language e.g. PHP
- Authentication and Authorization
